

Ready, set Go! TeamSport, Europes largest indoor karting operator opens state of the art Indoor Go Kart track in Nottingham

Opening today to the general public, Saturday 5th December, TeamSport's Nottingham track based is located in Victoria Retail Park, Netherfield. Take an early peek at the new multi-level Go Kart track that is over 750m in length and has a kart capacity of up to 16 karts.

This first class multi-level indoor go karting track is a much welcomed new leisure facility for local residents and visitors to the Nottingham area. TeamSport's Operations Director, Steve Evans was delighted to welcome specially invited guests to officially open the track and join in the inaugural race on the 4th December ahead of the first public race this weekend.

Guests donned professional race suits and watched the all-important safety briefing, before taking their seats in the karts. The novices amongst the guests were clearly a mixture of excited and nervous at the prospect of sitting behind the wheel of these brand new, 200cc karts that are famed for having acceleration like no other.

At breath-taking speeds of up to 40MPH, sitting only inches above the track, excited guests raced against one another and "Bruce" TeamSport's resident karting expert. All successfully navigated the hairpins, banked turns and long straights and before long even the novices had the determination of experienced thrill seekers looking to top the podium! A fantastic time was clearly had by the young and the young at heart, both on and off the track.

From today members of the public can look forward to racing this professionally designed, first class track and of course enjoying the other excellent facilities. These include; a track-side viewing gallery, purpose built party room for children and "Fuel" TeamSport's gourmet bar area serving a tasty range of delicious freshly cooked food and a full bar. With a wide range of specialist events and offers already available it's also set to be a firm favourite for thrill seeking stag do's, speed demon students, family days out and budding Lewis Hamiltons!

Dominic Gaynor, Managing Director of TeamSport said

"Our team have worked extremely hard over the last year to bring this project to life, and it's very rewarding to see the track complete. As recently voted by the public, Nottingham is England's "Home of Sport" and a city with a proud sporting heritage, notable for its sporting diversity. We are delighted to add TeamSport Indoor Karting to its' portfolio and most importantly offer a state of the art track so close to the city centre. Both TeamSport members and new customers alike have already expressed their excitement to get a glimpse of the new venue, try out the new track and join in the many events which are available to those aged 8 and over. I'd like to thank all involved for their commitment, we have brought a disused building back to life with a thrill seeking leisure facility, created many jobs for local people and I'm sure TeamSport will bring a lot of fun to Nottingham over the coming years."

ENDS
