

READY, SET, GO!
£1.5m go-karting track in the heart of Manchester Arena opens for business

TeamSport Karting, the UK's number one indoor go-karting company, has opened a £1.5m track in the heart of Manchester, breathing life into the disused basement of Manchester Arena.

The track, which opened on the 8th of November, includes thrilling corners, ramps and fast straights with a fleet of all-new karts that have a performance to satisfy even the most experienced racer.

The basement area at Manchester Arena, which has largely remained empty since the arena was built in 1995, now hosts the 550m state of the art race track. The central location and accessibility from the city centre will make the track a popular day out for locals and visitors alike.

Due to the track's unique location under the arena, all the karts are electric, which offers several advantages over petrol powered rivals, including a superior performance. The karts are capable of delivering maximum torque instantaneously, lower environmental impact and absence of fumes.

The facilities also include impressive state of the art meeting rooms to support TeamSport's corporate offering, private party rooms and '[Fuel](#)' - the track's fully-licensed bar - serving up a range of rustic pizzas and refreshing drinks, perfect for refuelling after some heart-racing laps around the track.

Speaking at the launch event, Dominic Gaynor, Managing Director of TeamSport Karting, said: "Manchester is one of the most vibrant cities in the UK, so we are thrilled to launch our 19th track in the heart of it. We have had a brilliant turn out for the event yesterday with a huge amount of interest for both corporate and personal bookings. Now the track is officially open for business we looking forward to welcoming the residents of Manchester to try out the track for themselves.

"With a range of affordable packages in a convenient and accessible location, we really do have something for everyone looking for the ultimate indoor go-karting experience - you never know, the next F1 Superstar could be from Manchester!"
