## TeamSport reopens Docklands go-karting track

TeamSport, the UK's leading company for indoor go-karting, has officially re-opened its Docklands track this week after 5 weeks of extensive work.

Following an investment of more than £250,000, returning racegoers and members can look forward to testing out their racing skills on a completely redesigned track.

Dominic Gaynor, Managing Director of TeamSport, said: "We're really excited to be re-opening our Docklands venue. We've been located at Herringham Road, Charlton for over 4 years and felt it was time to give our customers a brand new race experience when they visit the track."

"The first thing returning customers will notice will be our redesigned track, which has been reconfigured to include a mezzanine; giving racing fans a multi-level track experience over a staggering 900 metres. Not only will the update give racegoers a whole new challenge, but the track can now accommodate up to 20 drivers.

"Top of the range Biz 270cc LPG karts, which are capable of reaching up to 40mph, provide the thrills on track, and with cadet karts available too, families can visit and enjoy the fun of karting together.

"Based on the banks of the Thames, the track is the perfect place for a fun fuelled day out offering a safe, unique and great value-for-money go-karting experience. We've a range of race events that caters for everyone, so whether you're a karting newbie or promising F1 superstar there's a race format perfect for you. We've also just launched our new Cadet Academy which offers tuition for kids aged 8-16 years to help develop them into advanced racers. TeamSport Docklands also caters well for corporate events, the purpose built 100 seater meeting room provides great facilities for businesses looking for an action packed teambuilding day. Our free pick up service from North Greenwich Tube station for selected week day bookings and all weekend bookings makes getting to our track hassle free too."

Indoor karting is growing in popularity as a hobby across all ages and TeamSport support this by running offers such as half price mid-week karting and discounts for students along with their exclusive Grid Membership scheme, where racers receive a range of benefits such as free karting on their birthday.
