FOR IMMEDIATE RELEASE

TeamSport reopens Crawley go-karting track

TeamSport, the UK's leading company for indoor go-karting, has officially re-opened its Crawley track this week after 5 weeks of extensive refurbishment work.

Following an investment of over £200,000 returning racegoers and members can look forward to seeing an unrecognisable centre inside.

Dominic Gaynor, Managing Director of TeamSport, said: "We're really excited to be re-opening our Crawley venue. We've been located at Gatwick Goodsyard, Gatwick Road for over 9 years and felt it was time to refresh the site and improve the customer facilities to match that of our other sites across the country."

"The first thing customers will notice will be our redesigned reception area and then fully refurbished changing rooms & briefing room. The most exciting difference is the creation of our large new licensed 'Fuel' snack bar offering customers a range of drinks as well as rustic pizzas and hot dogs. New seating has been installed to give racers a perfect area for refuelling after a rapid few laps around the track.

"Fans of the track can be rest assured, the layout remains the same; two multi-levels tracks split over 3 floors which when combined gives race goers and thrill seekers a staggering 800m of track to master. Top of the range Biz 200cc karts, which are capable of reaching up to 40mph, provide the thrills on track, and with cadet karts available too families can visit and enjoy the fun of karting together.

"The track is the perfect place for an action-packed family day out offering a safe, unique and great value-for-money go-karting experience. Or if you're heading down to challenge your mates to finally put a stop to all their false claims of being the best driver, or making the most of our meeting facilities by bringing your staff for an action-packed corporate go-karting event, the Crawley track suits everyone's needs."

Indoor karting is growing in popularity as a hobby across all ages and TeamSport support this by running offers such as half price mid-week karting and discounts for students along with their exclusive Grid Membership scheme where racers receive a range of benefits such as free karting on their birthday.
